TECHNICAL SKILLS

Languages : Python, Java, C, C++

Frameworks & Libraries : Scikit-learn, TensorFlow, Pandas, NumPy

Skills : Data Structures and Algorithms, Problem-Solving

PROJECTS

Customer segmentation [↗](#)

Oct 2024

- **Description:** Segmented customers into distinct groups based on purchasing behavior using K-Means clustering for targeted marketing insights. productivity enhancement.
- **Technologies Used:** Python, Pandas, Matplotlib, Scikit-learn, K-Means Clustering.
- **Impact/Achievements:** Identified key customer segments, enabled data-driven marketing strategies, and improved customer targeting efficiency
- **Github Repository Link:** <https://github.com/surajchaudhary26/customer-segmentation>

Hybrid Machine Translation Combining SMT and Neural Word Embedding [↗](#)

March 2024

- **Description:** Developed a translation pipeline integrating Word2Vec embeddings and MarianMT to enhance translation quality. Applied semantic similarity techniques to refine output.
- **Technologies Used:** Python, Word2Vec, MarianMT, NLTK, Transformers, Semantic Similarity.
- **Impact/Achievements:** Improved translation accuracy through hybrid methods. Gained hands-on experience in NLP, machine translation, and deep learning models.
- **Github Repository Link:** <https://github.com/Rahulkumar6591/Hybrid-Machine-Translation-Combining-SMT-and-Neural-Word-Embeddings>

Movie Recommendation System [↗](#)

Dec 2023

- **Description:** Developed a recommendation system using the IMDB dataset, leveraging Content-Based and Collaborative Filtering for personalized movie suggestions.
- **Technologies Used:** Python, TF-IDF, Cosine Similarity, NLP, Matplotlib, Seaborn, Pandas, NumPy.
- **Impact/Achievements:** Built a real-time recommendation API using Flask. Optimized large dataset processing for scalability. Provided visual insights using data visualization libraries.
- **Github Repository Link:** <https://github.com/Rahulkumar6591/Movie-Recommendation-System-Using-IMDB>

CERTIFICATIONS

- Programming in C++: A Hands-on Introduction [↗](#)
- Data Structures and Algorithms - Self Paced [↗](#)
- Prompt Engineering for ChatGPT™ Coursera

ACHIEVEMENTS

- * Completed comprehensive training in Data Structures and Algorithms (DSA) through online platforms, strengthening problem-solving and coding skills using languages like C++
- * Built a strong foundation in algorithmic thinking, model development, and AI prompt design, enabling efficient problem-solving and practical applications of machine learning.

EDUCATION

Lovely Professional University

B.Tech. Computer Science and Engineering - CGPA - 6.1

2022 – 2026

Punjab, India

D. P. R. S. +2 High School/Senior Secondary School

Senior Secondary - XIIth - Percentage - 68.0%

2020 – 2022

Bihar, India

C. B. H. S. High School

Secondary - Xth - Percentage - 60.0%

2020

Bihar, India
